

Monday 12<sup>th</sup> October 2020

Dear Parents/Carers,

I would like the children to practise counting and recognising numbers reliably. I have attached some number cards up to 20 with an autumn theme. There are some different number cards if your child would prefer to use these instead.

Also, there is a fun counting activity for your child to complete at home with you. It is really important for children to be able to count carefully by using 1:1 correspondence. Please make sure your child counts each object and then finds the matching number.

Kind regards,

Mrs Sanford
