

Using the prepositions we learnt about this week, write a descriptive passage about the picture above. Remember how we started our sentences using the prepositions and used adjectives to describe the characters in detail. E.g. In front of the brown, snow-capped mountain there are eight multi-coloured, peculiar aliens.

Your passage must have at least 8 good quality sentences - one for each alien!

Preposition word bank:

above, behind, beneath, around, next to, far from, near, below, beside, among, against, between, in front of, on top of, inside, outside, under, through...

Remember this is NOT a story - just describe what you see.
