

Year 6

Homework

01.10.18

Due on the 08.10.18

Year 6 have been learning about the classification of living things and to help them understand more, they will need to do research on the Swedish naturalist and physician **Carl Linnaeus**. He brought into general use the scientific system of classifying plants and animals that is now universally used.

In addition, they have been given a hard copy of maths worksheet to practise what they have learnt this week.

**Spellings will be tested on Monday
the 8th of October.**
