

This term we are going to be exploring William Shakespeare so your homework is all about researching and exploring.

Find and record 5 interesting facts about William Shakespeare and 5 interesting facts about the *Globe Theatre* where many of his plays can be seen. (That's 10 facts altogether 😊)

You can display your facts in any way you want and include drawings/pictures too.

Use a page in your book and display all you have discovered. It would be fabulous if we could use some for display in our classroom too, so make them neat and colourful!
