

## Year 6 Christmas homework

### Title: The Nightmare Just Before Christmas

It was another **bitterly cold** and frosty December night in the North Pole. A **frozen** blanket of snow lay **deep** and **crisp** on the ground. Jack Frost had visited every home and had **etched magnificent spiral** patterns into every **glass** window. It really was the **harshest** weather that anyone could ever remember and it was two days until Christmas!

Santa Claus was **extremely** busy adding the finishing touches to his Christmas preparations. He was shortly about to deliver thousands of **wonderful** Christmas presents to many **excited** children from all over the world. His elves were beginning to load masses of **shiny** gifts onto his sleigh and his **brave** reindeer were practicing their final **manoeuvres** before the big day. Everything was coming together nicely; Santa was very **pleased** with his team.

Creative task for this week.

*Discuss the possible scenarios that could cause a problem that could ruin Christmas and then choose one to write about. Also consider how the nightmare could be stopped so the ending is a happy one! Some ideas are shown below.*
