

Maths Homework

4.3.19

Multiplying two 2-digit numbers

$26 \times 34 = \square$

\times	30	4	
20	600	80	= 680
6	180	24	= 204
Total			= 884

Answer these multiplications using the method shown.

1 $23 \times 35 = \square$ 4 $39 \times 45 = \square$
2 $34 \times 32 = \square$ 5 $28 \times 24 = \square$
3 $44 \times 26 = \square$ 6 $42 \times 36 = \square$

Now work out the answer to each division.

7 $6 \overline{)696}$

8 $5 \overline{)587}$

9 $4 \overline{)859}$

10 $3 \overline{)620}$

11 $8 \overline{)836}$

12 $9 \overline{)987}$

If you need any help, please come and ask before FRIDAY. You have been amazing at these this week in class, so this homework is practising these skills.

You can do it! ☺
