

Science Week Homework – you have two weeks for this!!

You are to research and write a report on a scientific discovery made by someone in history.

Only choose a discovery that you understand once you've read about it!

Watch video's to help you understand.

The report can be written in your English books. Diagrams can be used to help explain discoveries. Or if you prefer, you can make something to show off your discovery or create a poster.

Some suggestions:

Gravity

The Copernicum System

Electricity

Evolution

DNA

Xrays

Challenging

Theory of relativity

Research

Make sure, when you use google, that you add 'for kids' at the end. This will make the results easier to understand.
