

Use grid multiplication to work out the answers to these calculations

1.  $24 \times 3 =$

2.  $16 \times 4 =$

3. Write out the calculation which this grid shows

X		
3	60	3

Use expanded column method to work out these calculations

4.  $326 + 149 =$

5.  $246 + 235 =$

Use counting-up frog to work out these calculations

6.  $264 - 248 =$  \_\_\_\_\_

7.  $362 - 356 =$  \_\_\_\_\_

8.  $347 - 218 =$  \_\_\_\_\_

Use partitioning to work out these calculations

9. Double 76

10.  $2 \times 64 =$

Work out the answers to these worded problems

11. At a cinema there were 148 children and 56 adults. How many were there altogether?
12. A child buys a toy that costs £6.47 and a comic that costs 35p. How much did it cost altogether?

Write these times in words

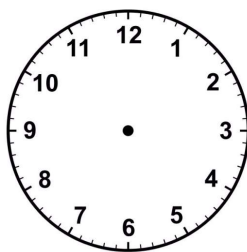

13.

14.

15. Show the time 10.25 on this clock face

16. What was the time 15 minutes earlier?
