

Year 2 Easter Homework

Well done year two for working so hard this term, but we still need to improve our maths so please practise adding and taking away 2 digit numbers and multiplying and dividing.

Remember to draw out your strategies, e.g. tens and units, taking away on a number line and sharing for division sums.

Please find in your book bags a maths paper for you to complete and return.

I hope you have a lovely Easter and I will see you next term.

Miss Henry
