

## English Homework – 29<sup>th</sup> April – Mr Lindsay's Group

### Animal Research Task

One of the topics we will be learning about this term is endangered animals. There are many animals which have critically low numbers, often caused by humans, in one way or another.

Choose any endangered animal, and complete an information page or poster about it. Be sure to include the cause of the animal's decline in the wild, as well as efforts that are being made to increase their numbers in the wild. You may include images and maps if you wish. Posters will be used to help decorate the English working wall.
