

Star poem

This week we have been continuing to work on the topic of space.

Help your child to write an acrostic poem about a star. This is where each letter of the word begins a new line of the poem. The poem doesn't need to rhyme. Here is an example:

Stars shining in the sky,
twinkling in the dark sky,
a shiny star so far away,
rocket zooming towards the star.

Either write down your child's ideas for them, or help them to write their poem themselves. If there is time, they could decorate their poem.
