

## Homework

Maths - I have added lots of maths games on Active learn to do as homework and to help with retention over the summer holidays. Children can access this at [activelearnprimary.co.uk](http://activelearnprimary.co.uk) using their own logins and the school code: sppr

English - The children will present to me and the class on Friday something new they have learnt over the week. The topic choice is up to them. It could be the history of computer games, endangered animal presentation, story about a new topic etc.
