

Maths Homework

Parents

Last week, in our maths lessons we looked at measurement and in particular, time.

Many children struggled with this so please ask your children time related questions on a daily basis, for example: How long is this show on for? What time will it be in 1 hour? Convert this to 24hr time?

Children

A simple challenge for you.

Work out how old you are in:

A- Seconds

B- Minutes

C- Hours

D- Days

There is no English homework this week as you should still be constructing your roman weapons.
