

Year 5 English Homework – 6.1.20

I hope you've had a fun and restful Christmas break – welcome back! For this week's homework, I would like you to write a paragraph, explaining "5 New Year's Resolutions." Resolutions are promises, or positive things you hope to accomplish this year. Some examples might be:

- Making new friends
- Being nicer to brothers or sisters
- Read every night
- Doing chores or housework the first time being asked

Make sure to give some reasoning for your resolutions – this should be a paragraph, not a list of 5 things. For example:

"My first New Year's Resolution is to practise my spellings every night. This will help me to improve my weekly spelling scores, and also help improve my spelling during independent work. I make time to practise them for 10 minutes every single day."
