

Year 5 Maths Homework – Year 5 - 27<sup>th</sup> January

Complete the following questions. For questions 1-5, please re-draw the triangles in your homework book as best as you can.

Remember:

- Equilateral Triangle → 3 equal sides, 3 equal angles
- Isosceles Triangle → 2 equal sides, 2 equal angles
- Scalene Triangle → no equal sides, no equal angles
- Right Angle Triangle → one angle is a right angle (90°)

**Look for clues**

Draw a line to match each description to a triangle.

- 1 A scalene triangle with one obtuse angle
- 2 An isosceles triangle with three acute angles
- 3 An equilateral triangle
- 4 A right-angled triangle
- 5 An isosceles triangle with one obtuse angle

**Order, order**

Write these measurements in order, smallest first.

- 6 1270 g    1.6 kg    350 g    2500 g    1.25 kg

\_\_\_\_\_

- 7 3000 ml    2.6 litres    1400 ml    0.8 litres    1.75 litres

\_\_\_\_\_

- 8 16 km    5 miles    10 km    15 miles    24 km

\_\_\_\_\_

1 mile = 1.6 kilometres
