

*British Science Week 6<sup>th</sup> -13<sup>th</sup> March 2020*

### *Poster Competition*

*Investigate and imagine 'Our diverse planet' and everything that makes it special. Here are some topic ideas to get you started:*

*Once you've done your research, it's time to get creative! Your poster must be:*

*2D (flat) - if you make a model, you need to just send us a photo of it on A4 or A3 paper.*

*You can use pop up pictures, pull out tabs or materials such as paint, drawing pencils, crayons and paper.*

- 1. Our planet is unique, but why not investigate what makes it different from the other planets in our solar system*
- 2. Why not think about biodiversity? From the diversity in your own garden, to the diversity at the very bottom of the ocean, research all the amazing creatures and organisms that live on our planet.*
- 3. Think about the other kinds of diversity our planet contains - from the variety of the molecules that make up essential parts of life, to the different ways our towns and cities are built, and the variation of people's tastes and interests.*
- 4. Have a think about all the diverse ways that science affects our lives and who you know that uses science every day. Is there science in baking and cooking? What about making a film or taking a picture? Or how about operating planes and cars? Remember that science is everywhere; you just have to look for it!*

*Entries should be given to Mrs Rodney by Tuesday the 10<sup>th</sup> of March.*

*Surprise! Surprise! Surprise! Make sure to bring your poster in on time.*
