

## Column subtraction

Choose four subtractions to work out using the column method.

$7458 - 2371$

$4003 - 2746$

$5348 - 3782$

$8543 - 2001$

$4582 - 2639$

$9167 - 4282$

## Addition towers

Use the column method to solve these addition towers.

5

$$\begin{array}{r} 36 \\ 23 \\ 45 \\ + 24 \\ \hline \\ \hline \end{array}$$

6

$$\begin{array}{r} 78 \\ 56 \\ 63 \\ + 48 \\ \hline \\ \hline \end{array}$$

7

$$\begin{array}{r} 364 \\ 421 \\ 59 \\ + 75 \\ \hline \\ \hline \end{array}$$

8

$$\begin{array}{r} 746 \\ 478 \\ 245 \\ + 532 \\ \hline \\ \hline \end{array}$$

## End-of-term challenge!

- 9 Write four 2-digit numbers using the digits 1 to 8 only once. Find the total. See how close to 200 you can get!

\_\_\_\_\_

- 10 Write three 3-digit numbers using the digits 1 to 9 only once. Find the total. See how close to 2000 you can get!

\_\_\_\_\_

I wonder who can get closest to 200 and to 2000 in the class.

I found this:

Easy

Challenging
