

Reading skills

Today, I want you to practise using your inference skills. Inference is where you make a guess based on the information you have about what is happening or why something is happening. Have a go at answering the 8 questions below based on the three photos below in your home learning books.

1. Where do you think this man is?
2. Why is he there?
3. How is he feeling?

4. Is this photo modern?
5. Where do you think these children are?
6. How do they feel about being there?

7. What can you infer from this picture?
8. What makes you think that?
