

Maths

Today, I'd like you to use a method which works for you and, in your home learning book, copy and complete these addition and subtraction calculations.

1. $286 + 179 =$
2. $395 + 474 =$
3. $378 + 272 + 346 =$
4. $258 + 139 + 332 =$
5. $304 - 278 =$
6. $423 - 378 =$
7. $632 - 589 =$
8. $841 - 350 =$
9. Dave has 62 gold coins, Rani has 82 and Justin has 74. If they discover a stash of 89 more, how many coins do they have altogether?
10. Beth has read 164 pages of her book. It has 224 pages, so how many more does she have left to read?
