# Fluttering Paper Butterfly Craft

## Supplies Needed

- Fluttering Paper Butterfly Template
- White cardstock
- Washable paint
- Paintbrushes
- Wide craft sticks
- Tacky craft glue and/or hot glue
- Pipe cleaners
- Scissors
- Sequins or glitter (optional)

## Directions

1. Print the template on white cardstock. There are 3 unique butterfly patterns included within the template. Each child will need to choose 1 pattern.
2. Invite your child to paint or color their butterfly pattern. When the paint is dry, invite your child to cut out their butterfly shape.
3. Glue a craft stick to the middle of the wings.
4. Cut a pipe cleaner in half, then bend your half into a v-shape to create antennae for the butterfly. Glue the antennae to the back of the wide craft stick.
5. If desired, glue sequins or glitter to the butterfly's wings.
