

Maths

Today we are going to look at comparing angles in shapes -

<https://vimeo.com/430336836> (Year 3-Week 9-Lesson 2-Compare angles).

Pause the video when you are asked a question and tell your grown-up your answer, then listen to the answer. Now complete the worksheet attached to our blog and if you complete it, and have time, have a go at this True or False challenge below.

The image shows a challenge box with an orange border. At the top left, the words "True or False?" are written in a playful, colorful font. At the top right, the text "Compare angles" is written in a smaller, white font. In the center of the box, the statement "Acute means 'less than a right angle'." is written in a black, sans-serif font.

True or False? Compare angles

Acute means "less than a right angle".
